

Video transcript – Bankwest Business Credit Cards

Business credit cards can help you manage your business expenses and cash flow.

They can be particularly useful for keeping your business and personal expenses separate.

Bankwest Business Credit Cards offer interest-free days, allowing you to plan ahead for purchases which may help you manage your cash flow. You could also earn reward points on eligible purchases.

A Bankwest Business Credit Card is personalised with your business name.

They can be managed in Online Business Banking, allowing you to keep track of your purchases and make payments on outstanding balances.

You can set up regular payments to transfer automatically to your business credit card, so you don't miss a payment.

With the convenience of contactless and chip technology, Bankwest Business Credit Cards are simple to use and secure at the same time.

Depending on the type of card you choose for your business, you may also be able to give your employees access through their own personalised credit cards, with some cards allowing you to monitor and control individual spending limits.
