

Video transcript – Business Merchant Solutions

Business Merchant Solutions offer a range of payment options to suit your business.

They can help enhance a customer's experience with your business by giving them more ways to pay. Bankwest can provide a range of options that allow your customers to make payments on-the-go, in-store or online.

These include EFTPOS tablets with wireless connectivity, terminals that integrate with your point-of-sale system, and the ability for your business to receive online payments.

You can choose a simple merchant plan with a flat monthly rate, based on the volume of transactions your business processes, or we can tailor a package to suit your business needs.

With everyday settlement into a Bankwest transaction account, Business Merchant Solutions provide you with fast access to your cash, allowing you to manage your cash flow.
