4 INTEREST

4.1 Credit Interest

The interest rate is variable. This means that any rate which is stated in this Product Schedule may be changed by us at any time. Any change to an interest rate will be notified in the press. You can obtain information about our current rates by visiting our website at bankwest.com.au or by calling the Customer Help Centre on 13 17 19.

Interest is paid monthly to the account and is calculated daily up to, and paid on, the first business day of the following month.

The credit interest rate tiers are as follows:

Amount From	Amount Up To	Interest Rate (p.a.)
\$0	\$1,999.99	0.01%
\$2,000.00	\$47,999.99	0.05%
\$48,000	And over	0.40%

Credit interest is calculated at the applicable rate on that portion of the balance which falls within each of the tiers.

4.2 Debit Interest

The account must not be overdrawn without prior arrangement; however, if the account does fall into overdraft then debit interest will apply to the overdrawn balance. Debit interest will be charged on the overdrawn balance at an annual percentage rate of 12.88% p.a. in accordance with clause 8.3 of the Bankwest Investment and Transaction Accounts Terms and Conditions. This rate is also referred to as the Variable Overdraft Reference Rate.

If there is an Overdraft Facility on the account and the agreed overdraft limit is not exceeded, interest will be charged on the outstanding balance of the Overdraft Facility at the annual percentage rate set out in the statement of account from time to time.

If there is an Overdraft Facility on the account and the agreed overdraft limit is exceeded:

- interest will be charged on the outstanding balance of the Overdraft Facility up to the agreed overdraft limit at the annual percentage rate set out in the statement of account from time to time; and
- interest on the excess will be charged at an annual percentage rate of 12.88% p.a. in accordance with clause 8.4 of the Bankwest Investment and Transaction Account Terms and Conditions. This rate is also referred to as the Variable Overdraft Reference Rate.

If there is an Overdraft Facility on the account, we calculate debit interest daily by multiplying the outstanding balance of your account by the annual percentage rate set out above from time to time and by dividing the result by the number of days in the year. Debit interest is calculated up to the second-last business day of the month and will be debited to your account on the last business day of the month.

If there is an Overdraft Facility on the account, we may at any time demand that you pay the entire outstanding balance of your Overdraft Facility
