

Video transcript – Introducing the Bankwest Home Lending Portal

We proudly dedicate ourselves to making your life as a Bankwest broker as easy as possible. Our digital experiences are continually evolving, and the Bankwest Home Lending Portal is the perfect example of ease through technology with real time updates available on all your Bankwest home loans in the one location.

As an accredited Bankwest broker, simply logon to the website at bankwest.com.au/brokers. Using your Broker ID or BK Code to access the portal.

In here you're able to view a summary of all active deals, plus click to view application specific information such as, current status, case owner, and comments made from Bankwest systems and colleagues.

For existing home loans assigned to your BK code, you can view all up to date information, including interest rate, balance limit, and repayment type.

If you'd like to find out more about the Home Lending Portal or need help with your broker codes or passwords, you can speak to your Broker Development Manager or one of our support teams listed on the broker website.
