

Video transcript – Beacon App

[Voiceover:]

The online world is home to some pretty amazing things.

But it grows and changes quickly, so it's easy to feel left in the dark with what your kids are up to.

That's why we created Beacon.

A cyber safety educational app designed to keep you up to date, so you can keep your kids safe online.

Beaky here will serve you up current content that's been tailored to your family's needs. And give you access to heaps of articles and videos put together by the experts in cyber safety.

Or find the answers to the things you've always wanted to know.

To set some boundaries, create a custom online family agreement for things like screen time, device-free zones and gaming.

Don't feel left in the dark.

Download Beacon today, the switched-on app for families online
